

SRP MULTIFAMILY SOLUTIONS PROGRAM OVERVIEW

Delivering water and power®

Effective FY23 (May 1, 2022–April 30, 2023)

MAKE UPGRADES FOR LESS

Managing buildings with multiple units takes a lot of time and resources. Make it a little easier with energy efficiency upgrades—and save with rebates from the SRP Multifamily Solutions Program. Making upgrades can help you:

- Lower your energy bills and operating costs
- Add value to your community
- Increase resident comfort and retention
- Attract new residents

Save on energy efficiency upgrades, including:

- High-efficiency HVAC equipment
- ENERGY STAR® smart thermostats
- LED lighting
- Electric vehicle chargers
- Shade screens
- Pool pumps

HOW TO QUALIFY FOR REBATES

- Be a current SRP electric customer
- Make upgrades to buildings with a minimum of four connected units
- Submit a completed application and any additional documents needed to verify energy efficiency upgrades
- Receive pre-approval for rebates from SRP before construction starts
- Install qualifying equipment as specified in the Terms and Conditions or instructed by SRP
- Follow the program rules and eligibility requirements in effect at the time you install the new equipment

HOW TO PARTICIPATE

1. **Call us for a no-cost consultation.** An SRP Energy Ambassador will identify ways you can save energy and will tell you about rebates and financing programs.
2. **Get an on-site assessment.** We will visit your community and recommend specific energy efficiency upgrades to maximize your potential savings.

3. **Apply for rebates.** Choose the upgrades you would like to make, select a contractor and apply for rebates. SRP will review your application and provide pre-approval before construction starts.
4. **Make upgrades.** Notify SRP when your upgrades are complete, and we will stop by to confirm.
5. **Receive rebates.** Earn rebates based on the efficiency of the equipment installed. The more energy you save, the more rebates you can earn!

Not ready to upgrade your equipment?

We are also offering **Energy Savings Kits** for residents of eligible multifamily communities.* Each kit includes four ENERGY STAR certified LED bulbs, an LED nightlight and a tipsheet to help residents lower their energy use and costs. Apply online at savewithsrpbiz.com/rebates/multifamily.aspx, and we will ship the kits directly to you to distribute to residents.

SRP BUSINESS SOLUTIONS

SRP is committed to helping you save energy and money. We offer a rebate or incentive program for every size and type of business.

- Standard Business
- Custom Business
- Small Business
- New Construction
- Retrocommissioning
- Electrification
- Business EV
- Multifamily
- Demand Response

Delivering water and power®

*Restrictions apply. Rebate funds are limited and available on a first-come, first-served basis.

FY23 PRESCRIPTIVE PROGRAM MEASURES

Product Name	Tier 1 Rebate	Tier 2 Rebate
Air-Cooled Unitary Air Conditioner	\$60/ton	\$85/ton
Air-Cooled Unitary Heat Pump	\$60/ton	\$85/ton
Beverage Machine Control	\$100/machine	N/A
Chillers	\$5/ton + up to \$310/IPLV kW/ton under min.	
DC Fast Charger	\$20,000/port	N/A
EC Motors	\$125/HP	N/A
Energy Star Refrigerated Beverage Vending Machine	\$130/each	N/A
Heat Pump Water Heater	\$250/each	\$300/each
LED Lighting - Exterior	\$0.15/watt reduced	N/A
LED Lighting - Interior	\$0.35/reduced watt	N/A
Level 2 Electric Vehicle Charger	\$4,000/port	N/A
Multi-Split Variable Refrigerant Flow Air Conditioner	\$75/ton	N/A
Multi-Split Variable Refrigerant Flow Heat Pump	\$75/ton	N/A
Packaged Terminal Air Conditioner	\$40/ton	N/A
Packaged Terminal Heat Pump	\$40/ton	N/A
Shade Screen (Maximum Solar Heat Gain Coefficient 0.25)	\$1.00/SqFt	N/A
Single-Package Vertical Air Conditioner	\$75/ton	N/A
Single-Package Vertical Heat Pump	\$75/ton	N/A
Smart Thermostats	\$150/self install	\$200/pro install
Snack Machine Control	\$40/machine	N/A
Variable Frequency Drives up to 100HP	\$90/HP	N/A
VFDs on Commercial Swimming Pool Pumps	\$135/HP	N/A
Water- or Evaporatively Cooled Unitary Air Conditioner	\$75/ton	N/A
Water- or Evaporatively Cooled Unitary Heat Pump	\$75/ton	N/A
Window Film	\$0.75/SqFt	N/A

TIER REQUIREMENTS

	Tier 1 SEER/IEER	Tier 2 SEER/IEER	Unit	Size	Heating Type	Type
Air-Cooled Unitary Air Conditioners & Heat Pumps	15.00	16.00	A/C	<5 tons	Elec. Resist	Package
	15.00	16.00	A/C	<5 tons	Elec. Resist	Split
	14.00	14.80	A/C	>5 to <11 tons	Elec. Resist	Package
	14.00	14.80	A/C	>5 to <11 tons	Elec. Resist	Split
	15.00	16.00	Heat Pump	<5 tons	Elec. Resist	Package
	15.00	16.00	Heat Pump	<5 tons	Elec. Resist	Split
	13.60	14.70	Heat Pump	>5 to <11 tons	Elec. Resist	Package
	13.60	14.70	Heat Pump	>5 to <11 tons	Elec. Resist	Split
Water- or Evaporatively Cooled Unitary Air Conditioner	15.30	N/A	Water-Cooled	>5 to <11 tons	Elec. Resist	Package
	15.30	N/A	Water-Cooled	>5 to <11 tons	Elec. Resist	Split
Heat Pump Water Heater	>2.35 to 2.50 EF	>2.50 EF
