

BUSINESS EV CHARGING PROGRAM

DC FAST CHARGER REBATE APPLICATION

Instructions: This program provides a \$15,000 rebate per port for networked DC Fast charging stations installed between May 1, 2022 and April 30, 2023 for SRP business customers. An additional \$5,000 rebate is available per port for government, schools, nonprofits, or multifamily customers. Fill out this rebate application and sign. Attach required pre-approval documentation (applicable equipment specification sheets, engineering drawings, pricing estimates/quotes). DC Fast Charging Rebates will be assessed on a case-by-case basis to verify the equipment is eligible, calculate the rebate amount, and reserve rebate funds for your project. SRP may also perform a pre-installation inspection at your facility. When the pre-approval process is complete, you will receive a notification with the pre-approved rebate amount, and then you can purchase and install the pre-approved equipment.

Once equipment has been purchased, please submit the Installed Equipment Form on the last page of this application along with a copy of your proof of purchase (invoices and photos of the installed equipment). For photos we would prefer one overall shot and at least one photo with a close up of the serial number or online screen shot from the charger network showing the serial number. Failure to complete this form and provide supporting documentation will result in your application being returned or denied. Rebates will be paid upon proof of invoice, delivery of equipment, and processing of complete application.

Please email completed applications to etechrebates@srpnet.com. For faster rebate processing, please complete the application online at srpetechrebates.com/ev.

To be eligible for the Business Electric Vehicle (EV) DC Fast Charging rebate, the customer must:

- Be an SRP retail electric customer, taking service under any general service (non-residential) SRP Standard Electric Price Plan, with an account in good standing.
- Purchase or install a DC Fast charger during the FY23 program year of May 1, 2022, and April 30, 2023 and apply by July 31, 2023 ("Effective Period").
- Be the SRP Customer of Record or Account Holder of the SRP account at each proposed site of an EV charger port.
- Have the legal right and authority to install the EV charger port(s) at the place(s) of business identified on the Rebate Application
- Provide all valid invoices that show dates of payment, make, model, and unique identifier (e.g. serial number) for all EVSE claimed and/or invoices for the electrical infrastructure being installed.
- Incentive is limited to 3 ports per customer per program year.
- Rebate eligibility is based on the eligibility rules in place at the time of purchase.
- Pre-Approval is required.

For a list of current approved DC Fast chargers, please visit srpetechrebates.com/ev. If your charger is not listed, and it meets the below criteria, please email us the product information to consider adding the charger to the approved list.

Hardware Requirements:

- Must be able to supply an output current of at least 50 kW per port minimum at 480 or higher volts.
- Include a charge connector compliant with CCS, CHAdeMO or Tesla.
- Compliant with NEC article 625.
- Rated for outdoor usage, NEMA 3R or better and an operating temperature range of: 0 to 122F.
- Shall be network ready – able to communicate with a network management system (NMS) and use Open technical standards
- ADA Compliant.

Software & Network Requirements:

- Software to control, operate, communicate, diagnose, and capture data.
 - The supplier shall provide network services capable of tracking usage, collecting data, billing customers and managing electrical loads.
- The EVSE software shall be certified to receive an OpenADR 2.0b signal.

REBATE PRE-APPROVAL APPLICATION DOCUMENTATION

All required documentation for rebate applications must be delivered to ICF at srpetechrebates@icf.com OR be submitted online at savewithsrpbiz.com/ev for a customer project to receive pre-approval. Customer acknowledges and agrees that the documentation for the applicable rebate application must be submitted within the Effective Period. Customer agrees to provide the following for each equipment for which customer seeks a rebate for (collectively, the "Documentation"): (i) a completed rebate application (except for the Installed Equipment Form, which is to be filled out after the customer has obtained the equipment), (ii) manufacturer and model of the proposed equipment, (iii) equipment specification sheets or engineering drawings, (iv) equipment pricing or quotes if available. ICF shall verify documentation meets program requirements within thirty (30) days of receipt and will notify customer of any discrepancies or pre-approval status.

REBATE PAYMENTS

Customer acknowledges that rebates are paid directly by ICF in accordance with the ICF-SRP Agreement. Customer shall receive payment directly from ICF within six (6) weeks of our final review of all the required documents.

TERMS AND CONDITIONS

Important: This form is to be read, signed, and submitted within the (“Effective Period”) by July 31, 2023 for installations of qualified equipment installed between May 1, 2022 and April 30, 2023. Salt River Project offers the SRP Business Electric Vehicle Charging Program (“EV Program”) to provide customers with rebates to facilitate the installation of qualifying equipment or electrical infrastructure. The following terms and conditions apply to the program:

1. SRP has contracted ICF Resources L.L.C. (“ICF”) to act as the Program Administrator and authorizes ICF to administer the EV Program including such activities, but not limited to; review, processing, and approval of customer applications; pre and post inspections of customer facilities and project information requests from customer; measurement and verification activities; and issuing rebate checks.
2. Funds are limited and EV Program applications are accepted on a first-come, first-served basis and must be submitted during the Effective Period. Rebates will be limited to 75 Level 2 and 3 DC Fast charging ports per customer per program year.
3. SRP allows customers to participate in multiple programs subject to an annual rebate cap, which is the maximum rebate amount a customer is eligible to be paid for the program year. For the current Effective Period, the rebate cap is \$300,000 per customer for all SRP Business Solutions programs in aggregate. A customer is defined as a holder of a single account, multiple accounts in aggregate or corporate accounts. For purposes of rebate caps, a customer who is the holder of multiple accounts or corporate accounts with a single SRP customer identification number will be considered a single customer.
4. Rebates pursuant to participation in the EV Program may result in taxable income to the Customer, even if Customer does not directly receive a payment. Customer should consult his or her own tax advisor with respect to the tax treatment of rebates provided pursuant to participation in the EV Program.
5. The SRP EV Program website describes the customer and equipment eligibility requirements, rebate information, and program participation process for customers participating in the EV Program. Customer must read and comply with the conditions outlined on this application and the current program website at savewithsrpbiz.com/ev incorporated herein by reference.
6. To be eligible for rebates through the EV Program, the participant must:
 - a. Be a current SRP non-residential electric customer.
 - b. Submit a completed EV Rebate Application and any supplemental documentation that may be requested to verify eligibility.
 - c. Purchase and install qualifying equipment at the Customer’s Account Service Address listed on this application.
 - d. Abide by the program rules, eligibility requirements, and rebate levels in effect at the date of equipment installation.
7. Customer is solely responsible for the selection of equipment or infrastructure to be installed or implemented and for the selection of a third-party service provider (“Customer Contractor”) to complete the installation and implementation of any equipment or measures. SRP and ICF make no representations and provide no warranty or guaranty with respect to the design, manufacture, construction, safety, performance or effectiveness of the newly installed equipment, including any warranties of merchantability or fitness for a particular purpose. Responsibility for delivery and workmanship related to any equipment or services the customer procures exclusively rests with the contractor or retailer selected by the customer. SRP and ICF assume no responsibility for oversight of contractor services or for any claims the Customer might have against the Customer Contractor, the manufacturer, or the retailer with regard to the energy efficiency services or measures implemented under the EV Program.
8. Customer hereby authorizes and acknowledges that SRP may disclose Customer’s information relating to a Customer Application (including the entirety of its contents), and any other information related to the Customer’s participation in the Program to ICF and Trade Allies, as applicable, and any other third party utilized by SRP for the purposes of processing the Customer’s Application, to verify or audit program records or system installation, operation and results, or as required to comply with state and/or federal law, fraud prevention, regulation, and other legal action. In those cases, SRP, ICF, and authorized third parties shall comply with all legal requirements of the jurisdiction of the individual whose Customer data would be disclosed before making such disclosure.
9. SRP reserves the right to inspect each EV charger port and network connectivity to verify compliance with these Program Terms. If SRP chooses to inspect an EV charger port, SRP will contact the Customer to schedule the inspection. By signing and submitting the Rebate Application, the Customer agrees to provide SRP and its subcontractors with reasonable access to the installation site during normal business hours. Customer consents to allow SRP or ICF access for usage data via the charging network.
10. In exchange for any approved equipment and/or service rebates for energy efficiency measures, the Customer hereby sells transfers and conveys to SRP all Environmental Attributes and Environmental

Attributes Reporting Rights, as such terms are defined below, associated with the energy savings attributable to the qualifying measure(s) or its operation. "Environmental Attributes" means those aspects, claims, characteristics and benefits of avoided energy use associated with the measure(s), as well as any and all fuel, emissions, air quality, or other environmental characteristics, including, but not limited to, white and green energy tags, renewable energy credits, energy efficiency credits, carbon credits, or certificates attributable to the energy savings or avoided use associated with the qualifying measure(s).

"Environmental Attributes Reporting Rights" means all rights to report ownership of the Environmental Attributes to any person or entity under Section 1605(b) of the Energy Policy Act of 1992, any successor or replacement statutes, or otherwise.

11. As a convenience to Customers, SRP provides a list of contractors, distributors, manufacturers, and other organizations ("Trade Allies") who may assist Customers with SRP programs. Customer acknowledges that Trade Allies are independent contractors with respect to the Program, and that Trade Allies are not authorized to make representations or incur obligations on behalf of SRP without prior approval. Participation in the Program as a Trade Ally does not constitute an endorsement by SRP, nor does it certify or guarantee the quality of work performed.
12. Any person who knowingly files an application containing any materially false information or who purposely or misleadingly conceals information subjects such person to criminal and civil penalties. Any and all funds determined to have been acquired on the basis of inaccurate or fraudulent information must be returned to SRP. Any customer found to be engaged in fraudulent activity or misrepresentation of any kind will be removed from the EV Program. This section shall not limit other remedies that may be available for the filing of a false or fraudulent application, including, but not limited to, referral to law enforcement authorities.
13. Notwithstanding anything in these Terms and Conditions to the contrary, in no event will SRP, ICF, or their agents, consultants or subcontractors be liable hereunder for any type of damages, whether indirect, special, incidental, consequential, exemplary, reliance or punitive (even if advised of the possibility of such damages), including, without limitation, loss of use or loss of profits, whether in contract, indemnity, warranty, strict liability or tort, including negligence of any kind. Customer waives any claims it might have against SRP or ICF.
14. Customer, at its own expense, is responsible for meeting all requirements and complying with all local and state laws and codes concerning the EV Program, including without limitation, the installation and maintenance of eligible equipment. Customer shall, at its own expense, obtain and maintain licenses and permits needed to install eligible equipment. Failure to obtain and maintain necessary licenses and permits constitutes a material breach of Customer's obligations under these Terms and Conditions.
15. SRP, ICF, or their respective agents, consultants, and subcontractors shall not have any responsibility for the discovery, presence, handling, removal, or disposal of or exposure of persons to hazardous materials of any kind in connection with Customer's facility, including without limitation, asbestos, asbestos products, PCBs, or other toxic substances.
16. The terms and conditions set forth herein constitute a complete statement of the Terms and Conditions applicable to this promotion, and supersede all prior representations or understandings, whether written or oral. SRP shall not be bound by or be liable for any statement, representation, promise, inducement or understanding of any kind that is not set forth herein. SRP reserves the right to change or cancel this promotion or its terms and conditions at any time.

Signature and Certification

I certify that the equipment described in this rebate application has been installed at the service address indicated. I agree to the terms and conditions stated in this application.

INSTALLATION COMPLETED APPLICATION DOCUMENTATION

Instructions: Once your application has been pre-approved, purchase/install the pre-approved equipment and fill out this Installed Equipment form. You must submit the Installed Equipment form with a copy of your proof of purchase (invoices and photos of the installed equipment). Failure to complete this form and provide supporting documentation will result in your application being returned or denied. Rebates will be paid upon proof of invoice, delivery and installation of equipment, and processing of complete application. Please email applications to etechrebates@srpnet.com. If you prefer to apply online, visit srpetechrebates.com/ev.
